

LISBON EXEMPTED VILLAGE SCHOOLS
DAVID ANDERSON JR/SR HIGH SCHOOL

Preface

It is the belief of the David Anderson Jr-Sr High School Athletic Department that the purpose of interscholastic athletics is to build character and instill self discipline through participation. Special programs and training of student athletes makes necessary a "Code of Conduct", be adopted to protect the athletic program and its participants. Student athletes are reminded that high school athletics is a privilege and not a right.

The parameters of this athletic code begin at the start of the seventh grade year or at the time of enrollment and extend through the twelfth grade. There will, however, be a distinction between the junior high and high school years with the student athlete's record being cleaned when they enter the high school.

Students participating in interscholastic athletics are considered to be athletes for the entire year (365 days). They are subject to the rules and regulations throughout the duration of the "athletic year" without exception in the following areas. Authorizing of this form provides connection for information to be shared between school district and local law enforcement.
